Multi-Functional Lecture Hall

Application Scenarios

- Large-scale events, lectures, and performances

Program Features

- The blackboard content can be scanned to save and share
- One-click interaction: during a classroom lecture, the teacher's tablet can be displayed on the same screen to all groups
- Smart blackboard eraser, erases physical and electronic handwriting simultaneously
- Precise 4K automatic tracking camera
- Multi-purpose podium with storage for other equipment and class items
- The ceiling array microphone has 12 beams that can cover the entire space, so the sound of teachers and students can be picked up normally regardless of whether they are sitting, standing or walking.
